Strategic Frameworks and Concepts Developed by Mike W Peng

One of Peng's most notable contributions is the development of strategic frameworks that help organizations understand and navigate the complexities of international markets.

The "Global Strategy" Framework

Peng emphasizes the importance of understanding institutional differences across countries and regions. His framework suggests that firms must adapt their strategies based on:

- Market Drivers: Consumer demand, technological changes, and competitive dynamics.
- Institutional Contexts: Regulatory environments, legal systems, and cultural norms.
- Resource Capabilities: Internal strengths and weaknesses relative to external opportunities and threats.

By assessing these elements, organizations can craft strategies that are both globally coherent and locally responsive.

The "Institutional Voids" Model

Peng pioneered the concept of institutional voids—gaps in the formal institutions such as banking, legal, and regulatory systems—that are prevalent in emerging markets. His model posits that:

- Firms operating in such environments must develop alternative strategies, such as building informal networks or leveraging government relationships.
- Recognizing and adapting to institutional voids can be a source of competitive advantage.
- Success hinges on understanding local contexts and innovating in response to institutional deficiencies.

The "Dynamic Capabilities" Approach

Peng advocates for cultivating dynamic capabilities—organizational skills that enable firms to adapt swiftly to changing environments. These include:

- Sensing opportunities in emerging markets
- Seizing new ventures
- Reconfiguring resources to maintain competitive advantage

These firms illustrate how understanding and responding to institutional differences can lead to global success.

1. Conduct Institutional Analysis: Understand legal, political, and cultural nuances.
2. Customize Strategies: Develop locally tailored approaches rather than a one-size-fits-all model.
