Foundations of Marxist Thought

proletariat (working class).

Modes of Production

- The various ways societies organize economic activity and production. - Examples include feudalism, capitalism, and socialism, each characterized by specific relations of production.

Core Concepts and Terminologies in Marxism

A dictionary of marxist thought includes numerous key terms that encapsulate its core ideas. Here, we explore some of the most significant concepts.

Capital

- The accumulated wealth used to generate further wealth through investment and production. - In Marxist thought, capital is a social relation rooted in ownership of the means of production.

Surplus Value

- The value generated by workers beyond what they are paid, which is appropriated by capitalists. - A central concept explaining profit and exploitation within capitalism.

Social and Cultural Dimensions of Marxism

Marxist thought also addresses societal and cultural issues, emphasizing ideology and consciousness.

Ideology

- The system of ideas, beliefs, and values that serve to justify and perpetuate existing social relations. - Marx saw ideology as a tool of the ruling class to maintain dominance.

False Consciousness

- A distorted understanding of social reality that prevents the working class from recognizing their true class interests. - A barrier to revolutionary change.

Superstructure

- Encompasses culture, politics, law, and ideology. - Reflects and sustains the economic base.
