PDFs are widely compatible with screen readers, enabling visually impaired users to access content through text-to-speech technology. Properly structured PDFs with selectable text, headings, and alt text improve accessibility and usability.

In addition to PDFs, alternative formats such as ePub and audiobooks further expand accessibility. ePub files allow users to adjust font size, spacing, and background color, making reading more comfortable for individuals with visual or reading difficulties. Audiobooks provide an option for auditory learners or users who prefer listening over reading.

Many reading applications include accessibility features such as night

mode, contrast adjustments, and dyslexia-friendly fonts. These tools reduce eye strain and improve comprehension, allowing users to tailor the learning experience to their individual needs.

Accessibility also includes language and learning flexibility. Digital Infolanka Newsroom News Updates can be translated, read aloud, or combined with assistive tools such as dictionaries and note-taking apps.
